Baptistry Accessories

FITTINGS & FIXTURES

#172 Trip Lever Drain Overflow & Release

3 Ft. or 3 ½ Ft. Trip Lever Unit. Can be installed at any location. Simply operate lever at overflow to open and close drain valve. "O" Rings on valve prevent leakage.

Hand Rails

#700 Single Fill Faucet ½" S.P.S

Make it easier safer for your celebrants to enter and exit the baptistry with a stainless steel handrail system. Mounts directly to the landing floor, and may be easily installed on concrete, tile, wood & metal.

#6895 Electrical Interrupter is designed to turn off all power to the Baptistry Heating Electrical System if there is a short of only 5 to 6 mili amps. Protecting people from electrical shock. The National Electrical Codes in many states, counties and cities are requiring that a ground fault interrupter must be installed in electrical systems where it is possible for people to be subjected to a short-to-ground condition. The #230, rated at 30A will handle the 6KW, or 11.5KW Circulation Heaters. Wiring diagrams are supplied with the Ground Fault Interrupter. Always install GFI as close to the heater as possible. Nipple the GFI to the contactor box or heater cover box.

Immersion Baptistry Water Heater

The 240V heater will heat 60 Gallons per hour to a 40 degree rise. A 750 - 1000 gallon tank will heat in 13 - 17 hours. If you select the 120V model, the heater will operate at 120 volts and power will be reduced to 1.5 KW and will heat 15 GPH to 40 degree rise.

Deluxe Baptistry Heater

The ChurchRite 240 V Circulation Heater features an stainless steel housing (no rust), a 1/2 HP pump motor, and thermostat control. Available in 5.5 KW and 11 KW sizes. The 5.5 will heat the average 500 gallon baptistry in 6 hours by 30 degrees F. The 11 KW will heat the same baptistry by 36 degrees F in about 4 hours. Can be installed up to 12 feet from baptistry. Heating indicator light. Adjustable thermostat. GFCI included. Air button On/Off switch. Receptacle for the optional Auto/Fill Drain Unit. Easy assembly required.

One Year Ltd. Manufacturer's Warranty

6KW Circulation Baptistry Heater

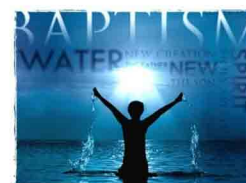

Incoloy Steel Heating Elements / Adjustable Thermostat
Well Insulated with Fiberglas / 240v single phase power
